

BonTea Operations

The BonTea operation simulation is basically a step-by-step system that helps manage customer orders smoothly in a milk tea shop. It all starts when a customer orders a drink. Right away, the system checks if all the ingredients are in stock. If everything is available, they move on to making the drink. But if anything's low, an alert pops up, and someone restocks what's missing before they keep going. This way, they make sure they're not running out of ingredients and causing delays.

Making the drink itself takes about 3-6 minutes, which is normal for custom orders. After it's ready, they take another 1-2 minutes to get the drink to the customer. They've got different roles, like a Barista who makes the drink and a Cashier handling the orders, so each step is covered by the right person.

This whole setup is meant to keep things running smoothly and avoid issues, like restocking during an order. The simulation helps the shop stay responsive, with the inventory levels directly affecting how fast they can prep and serve drinks.

AI CHECKER:

The screenshot displays an AI checker interface. At the top, there are icons for text, file, and image uploads, along with a 'Detect Text' button and an 'Upload File' link. A character count shows '1,042/15,000 Characters' and a link to 'Check 125,000 characters, Upgrade Here'. The main content area features a large circular gauge indicating '0% AI GPT*'. Below this, a paragraph of text is shown, with a small portion highlighted in yellow. A legend states: 'Highlighted text is suspected to be most likely generated by AI*'. At the bottom of the text area, it says '1,042 Characters' and '177 Words'. To the right of the text is an 'Export to PDF' button. The interface is flanked by two Twilio advertisements on the left and right sides.

PLAGIARISM CHECK:

The screenshot shows a 'Plagiarism Scan Report' interface. At the top, there are three tabs: 'Check Grammar', 'Make it Unique', and 'AI Detector'. Below the tabs, statistics are listed: 'Characters: 1042', 'Words: 178', 'Sentences: 11', and 'Speak Time: 2 Min'. A 'GO PRO' button is visible. The main content area contains a paragraph of text, which is the same text as in the AI checker screenshot. To the right, a circular gauge shows '0% Plagiarized' and '100% Unique'. Below this, a 'View Plagiarized Sources' link is present. At the bottom right, there is a video player showing a globe. A 'Download' button is visible at the bottom left.
